Section §31-3-21(b) of the General Laws of the State of Rhode Island provides that "intransit plates may be used to operate or move special mobile equipment upon the highways solely for the purpose of moving that equipment to and from the location of any type of construction."

Section §31-1-9 defines Mobile equipment. "Mobile equipment" means every vehicle not designed or used primarily for the transportation of persons or property and only incidentally operated or moved over a highway, including but not limited to: ditch digging apparatus, well boring apparatus, and road construction or maintenance machinery such as asphalt spreaders, bituminous mixers, bucket loaders, tractors other than truck tractors, ditchers, leveling graders, finishing machines, motor graders, road rollers, scarifiers, earth moving carry-alls and scrapers, power shovels and drag lines, and self-propelled cranes and earth moving equipment. The term does not include house trailers, dump trucks, truck mounted transit mixers, cranes, or shovels, or other vehicles designed for the transportation of persons or property to which machinery has been attached.

In-transit plates require compliance with all other sections of RIGL including "**Section §31-25** Size, Weight & Load Limits" and "**Section §31-24** Lighting Equipment and Reflectors".

I certify that I have read, understand and will follow the conditions contained in the applicable laws listed above regarding the usage of an In-Transit Plate.

I, the undersigned, declare under penalty of perjury, that all statements made on this application are true and complete to the best of my knowledge.
